

TOUGHNUTZ™

ULTIMATE FUEL LINE SERVICE TOOLS

Saves Time When Replacing Fuel Lines!

The TOUGHNUTZ™ Fuel Line Service tools were designed to remove stubborn fuel lines from today's Hi-tech cars & trucks.

The secret is in their simplicity. They're made of aircraft grade aluminum. This makes them very light yet still very strong. The opening at its widest point, is 3/4" and goes down to 1/8". This allows a universal application with just two tools. This provides access into the smallest places with the most force available to remove the worst nightmares!

Fuel Line Tool Features:

- Saves Time In Fuel Line Repair
- Made Of Aircraft Aluminum
- Fit Tool Into Tight Spaces
- Universal Application For All Foreign & Domestic Vehicles
- Made In USA
