

TOUGHNUTZ™

TOUHCLEAN POWER HAND SCRUB

It Will Take Off Anything!

No qualifications here... We simply haven't been able to find anything the working person gets their hands into, that TOUHCLEAN™ Hand Cleaner can't remove.

TOUHCLEAN™ Can Remove:

- Oil
- Grease
- Adhesives
- Paint (wet or dry)
- Tar
- Bondo
- Dye
- Spots On Clothes
- Glue
- Asphalt
- Printers Ink
- Permanent Marker

TOUHCLEAN™ Will Actually Help Your Hands Heal!

A cleaner that can remove anything may sound like it is a really harsh industrial hand cleaner loaded with solvents... not so! TOUHCLEAN™ Hand Scrub uses the same formula of ingredients that is presently being sold to cosmetics companies in bulk form to be placed into fancy decorator bottles and sold at a high price by fashion boutiques as a facial scrub ...it is that safe! **There are absolutely NO petroleum products of any kind in the formula.**

Don't be fooled by other hand cleaner companies that claim "petroleum solvent free". They only substitute harsh d'limonene [turpentine made from orange peels] or "mineral spirits" or other harsh solvents which are extremely damaging to your skin.

TOUHCLEAN™ can be used in any application where you need to get dirty, greasy, inky hands clean without damaging chemicals or unwanted smells.

A Short List Of Applications Includes:

- Garage Mechanics
- Machine Shops
- Maintenance Dept.
- Fire Departments
- Truck Stops
- Construction Companies
- Beauty Salons [Hair Dye]
- Carpet Cleaners
- Municipalities
- Jewelers [Rouge]
- Schools
- Florists
- Printers
- Painters
- Restaurants
- UPS Stores
- Dry Cleaners
- Plumbers
- Roofers
- Post Office

Just pour a little TOUHCLEAN™ on dirty hands. Rub hands together with or without water, then rinse. You'll have cleaner and healthier hands in any application.
